PROFESSIONAL EXPERIENCE

Oraczen India | Hyderabad, India

AI Product Manager and Acting Director of Product Management | May 2025 - Present

- **Director-Level Accountability:** Owned strategic roadmap, P&L accountability for a 6.4-million-dollar portfolio, and executive client relationships for a 12.4-billion-dollar U.S. banking enterprise.
- **AI Platform Strategy:** Defined and executed multi-product AI strategy spanning Chat Agents, Voice Agents, Lending AI, Requirement gathering, Spend Intelligence, and Risk Intelligence.
- **AI-powered Enterprise:** Built AI products from 0 to 1 and scaled them from 1 to N to transform customer and end user problems and feedback into market-ready SaaS solutions.
- **RAG and MCP Transformation:** Architected enterprise-grade RAG pipelines integrated with Model Context Protocol to replace low-efficiency manual processes with AI-driven automation at scale & introducing knowledge graph.
- **Organization Leadership:** Hired and managed an 8+ member cross-functional organization containing 3 Product Managers, 3 developers, 1 QA, and 1 UI/UX designer; increased release velocity by 30% through Agile restructuring.
- **Process Engineering:** Conducted 4+ process discovery workshops with business stakeholders to document current-state workflows, identify operational bottlenecks, and define optimization opportunities.
- **AI Quality and Ops:** Instituted LLM evaluation frameworks using Langfuse, Grafana, and Promptfoo red-teaming to achieve 92% to 95% accuracy, P95 latency under 1.5 seconds, an error rate under 0.75%, and a 99% plus uptime SLA.
- **Governance and Compliance:** Established Architecture Review Board compliant release governance with 95% adherence; ensured HIPAA, PCI-DSS, and GDPR compliance across all AI product deployments.
- **C-Suite Engagement:** Directly engaged with client SVP of Product Architecture and COO alongside internal alignment with CTO and COO to lead cross-organization coordination across 8 functional teams.
